

You can search the Data Base on the best practice examples using several search options.

To see all the examples of best practice available in the Data base:

- use the "[All countries](#)" button
- select all countries from the drop down list and press the "[search](#)" button

To find the examples of best practice from **the particular country:**

- select the country from the drop down list and then press the "[search](#)" button.

Note, that you can only select one country at the time. In order to see examples from another country, change the country and press the "[search](#)" again.

To find the examples of the best practice by the **key word:**

- choose and click on the key word from the list of the most frequently used key words below
- enter the key word or a part of it in the empty box and press the "[search](#)" button

Note that you can enter only one key word and only the exact matches will be found. In order to search by another key word, replace the key word you have entered and press the "[search](#)" button again.

Combined search to find the examples of the best practice from a particular country and by the particular key word:

- select the country from the drop down list, introduce the key word or a part of it in the empty box and then press the "[search](#)" button.

Note, that you can only select one country and enter one key word at the time.
